ERIC HOWES

Operations Manager | Solar & Energy | PMP

Orem, UT | (801) 367-6743 | howesfamilyhomes@gmail.com | linkedin.com/in/eric-howes-utah

PROFESSIONAL SUMMARY

Operations leader who finds where work is stalling, makes it visible, and builds the process that keeps it moving. As an ION Solar area manager in 2021, Eric ran post-sale operations for the Las Vegas and Arizona markets and contributed to a 57% increase in PTO processing rate. Since then he has written construction SOPs and set up inventory, fleet, and quality controls for a Lehi home builder, cut return-to-resolution time about 50% at Lion Energy, and owned software used by more than 2,000 seasonal reps at Aptive. He helped grow a Vivint installation-support team from 20 to more than 50 reps and still sells energy management today, leading a 70% attachment rate on Vivint's Smart Comfort program. He wants to bring that mix of KPIs, SOPs, and people development back to an ION department.

CORE SKILLS

Department KPIs and performance reporting | SOPs and workflow design | Bottleneck analysis and continuous improvement | Coaching and training teams | Workforce scheduling and resource planning | Solar post-sale operations through PTO | Cross-department coordination | Microsoft Office, Jira, Confluence

PROFESSIONAL EXPERIENCE

Inside Sales Representative | **Vivint Smart Home** June 2026 – Present

Provo, UT

Sells smart-home and energy-management systems in Vivint's national inside sales group, running the pipeline like a project.

- Leads a 70% attachment rate and 50% install rate on Vivint's Smart Comfort energy-management program.
- Keeps sales-to-install completion above 90% and converts 30% of outbound leads.
- Trains and mentors new reps on process and onboarding.

Project Manager (Independent Contractor) | **H and H Homes** June 2025 – June 2026

Lehi, UT

Ran residential construction jobs from start to finish across Utah and Salt Lake counties and built the operating processes behind them.

- Put construction management SOPs in place for how jobs were run.
- Added inventory tracking and an equipment maintenance program.
- Managed the vehicle fleet.
- Set up quality and safety controls on job sites.

Product Owner (promoted from Project Manager) | **Lion Energy** May 2024 – June 2025

American Fork, UT

Coordinated portable energy products, quality, and returns across engineering, the warehouse, and manufacturing partners in China and Vietnam.

- Improved the return-to-resolution workflow by about 50% in an operation handling roughly 10,000 partner returns a year.
- Cut root cause investigation time from months to about one week.
- Reduced yearly RMAs by 10%, and helped cut partner product returns 15% over several months.
- Contributed to an estimated $100,000 in first-year savings on return processing, storage, and labor.
- Wrote SOPs and a technology department handbook, and introduced Agile and Scrum with Jira and Confluence so teams could see progress and blockers.
- Moved the PPG2500 portable power station into production.

Product Owner (promoted from Project Manager) | **Aptive Environmental** Dec 2021 – May 2024
Provo, UT
Owned operational software and enterprise technology projects, working across operations, sales, finance, legal, and executive leadership.

- Product Owner for software used by more than 2,000 seasonal sales reps for recruiting, onboarding, licensing, and housing.
- Contributed to a reported 29% relative drop in onboarding dropout from a baseline of about 25%.
- Contributed to estimated annual savings of about $250,000 on rent overpayments and $375,000 on vacancy and placement management.
- Coordinated a major data and technology migration that contributed to an estimated $3 million or more in annual recurring savings.
- Coordinated about 12 developers, including overseas contributors, and set backlog priorities with business leaders.

Area Manager, Post-Sale Operations | **ION Solar** June 2021 – Dec 2021
Las Vegas and Arizona markets (based in Orem, UT)
Moved residential solar projects from signed sale through install, inspections, utility requirements, and permission to operate.

- Contributed to a 57% increase in PTO processing rate.
- Improved tracking so project status was visible to every department involved.
- Found operational bottlenecks and coordinated the teams needed to clear them.

Junior Project Manager | **K-Designers** Jan 2020 – June 2021
West Valley City, UT

- Scheduled rotating crews of one to six workers and coordinated up to ten contractors on remodeling jobs from sales handoff to completion.
- Ordered materials and kept the warehouse and inventory ready for upcoming jobs.

Analytics Manager (four progressive roles) | **Vivint Smart Home** Jan 2011 – Jan 2019
Provo, UT
Moved from inside sales to account manager, analytics manager, and enterprise partner sales and training over eight years.

- Helped build an installation-support department from more than 20 reps to more than 50, monitoring roughly 300 to 1,000 installation accounts a day.
- Coordinated a four-person analytics team that built installation and sales dashboards and commission tracking tools.
- Supported a reported 34% relative improvement in sales-to-install conversion.
- Built risk scoring to flag installations likely to cancel or stall.
- Designed and delivered training for hundreds of independent partners, contributing to more than $1 million in new annual revenue.

EARLIER EXPERIENCE

- Lead Home Manager, Lindon Care and Training (2009–2011): supervised staff at about one employee per eight residents; scheduling, training, safety drills, incident reporting.
- Concrete Foreman and ground crew supervisor, Paramount Homes (2004–2006); Fabrication Worker, AA Machine and Welding (2007–2009); Flooring Installer, McKinnon Hardwood Floors (2002–2004).
